Final 2022 Curbside Yard Waste Collection is Nov. 28

The last Monday of November is the final day to put out yard waste for collection. Yard waste includes vegetation materials, such as grass clippings, leaves, brush and garden waste. Here are some tips to ensure your yard waste gets picked up:

- Yard waste must be put into biodegradable bags or reusable containers with a 40-pound maximum weight.
- Sticks, brush and branches must be cut into four-foot lengths and bundled (with string or twine) with a 40-pound maximum weight per bundle.
- Do not use your garbage or recycling containers for yard waste.
- Place approved items at the curb for collection prior to 7 a.m. each Monday.

As the beautiful autumn leaves fall, follow these tips for proper leaf removal to keep decomposing leaves out of bodies of water where they can "steal" oxygen from fish.

- Never rake leaves into the street, as they may end up in storm drains.
- Instead of raking, suck them in with a leaf blower in reverse, mow over leaves or use them as mulch.
- Add leaves to your compost pile.

For any garbage, recycling or yard waste questions, please call Ankeny Sanitation, Inc. at 515-964-5229.
