Subject: Theater Propsal

I received a call today from a representative regarding the proposed theater in front of Lutheran Church of Hope off of Hickman. Traffic is already horrific in that area, now add apartments in front of the mobile home park, all the additional homes/school north of the church and now a theater. Using the justification of extending Venture through will help solve traffic issues is humorous. Zoning regulations are in place for a reason. Seems like the perfect project for the Grand Prairie Parkway/Kettlestone area where there is immediate interstate access, etc. Hickman already has enough problems, a theater will only add to the burden even worse. Please reconsider any support of that location.
Thank you
Michael Ernst
